

Appl. Serial No. 10/623,703
Atty. Dkt. No. 076326-0258

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Maximilian BOSSECKER et al.
Title: OCCUPANT PROTECTION DEVICE FOR
MOTOR VEHICLES
Appl. No.: 10/623,703
Filing Date: 07/22/2003
Examiner: Unassigned
Art Unit: 3616

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56.

A copy of each non-U.S. patent document is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), before the mailing date of the first Office Action on the merits.

RELEVANCE OF EACH DOCUMENT

Any document listed on the attached PTO/SB/08 was cited as being relevant during the prosecution of the corresponding German application.

Document C2 corresponds with Document C1.

Document C3 relates to a protective device which includes a gas generator (2) and a quickly inflatable airbag (1) to protect the head of a vehicle occupant in the event of a side impact. It has a traction or tension cable (3) in a plane perpendicular to the impact direction, to prevent the inflated airbag being diverted in the impact direction. The traction cable may be driven to assist the unfolding of the airbag and to hold the airbag basically parallel to the side window adjacent to the head over the bodywork aperture in the side window region. The drive device may be activated along with the gas generator to act with the traction cable as the bag unfolds and to hold the inflated airbag over the bodywork in the region of the side window.

English translations of the foreign-language documents are not readily available. However, the absence of such translations does not relieve the PTO from its duty to consider the submitted foreign language documents (37 CFR §1.98 and MPEP §609).

Applicants respectfully request that any listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

STATEMENT

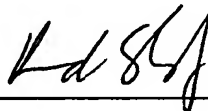

The undersigned hereby states in accordance with 37 CFR §1.704(d) that each item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart application and that this communication was not received by any individual designated in 37 CFR §1.56(c) more than thirty days prior to the filing of the information disclosure statement.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

Respectfully submitted,

Date: January 21, 2005
